

video conferencing and live streaming at thestudio ●●●

starteroptions

We have the latest Icon 700 video Conferencing/Live streaming technology from Lifesize® in all of our venues with the ability to live stream 4K Ultra-HD content so your guests can participate in your meeting or event from anywhere in the world.

This cost effective solution gives you options to host a video conference call for a small audience, live stream your event to a larger audience and record the lot for people to view later.

We have three starter options for you to choose from:

Video Conferencing - £250+VAT per day

- Your very own small virtual meeting room
- Available at all studio locations
- 'Picture in Picture' mode to display presentations and presenter concurrently
- Participants can join from anywhere in the world with a compatible device with camera (e.g. laptop, mobile or tablet)
- Accessible remotely via browser, Lifesize app or any other dedicated video conferencing solution
- Available for up to 25 direct participants

Live Streaming - £500+VAT per day

- Live stream your event to anywhere in the world
- Available at all studio locations
- Single fixed camera point
- 'Picture in Picture' mode to display presentations and presenter concurrently
- 'Chat box' function for Q&A
- Participants can join from anywhere in the world with a compatible device (e.g. laptop, mobile or tablet)
- Accessible remotely via a URL that is confirmed to the organiser at the time of booking
- Available for up to 150 direct participants

Recording - £50+VAT per day

- Record any booked live streaming or video conference, available for the organiser directly after the event and available to distribute as appropriate.

advanced options

Working in partnership with specialist AV provider Bryght we're proud to be able to offer our dedicated live streaming studio for clients who want to offer a more rounded production to their event.

Starting from £3,000+VAT per day this full production offer is perfect for a totally virtual event. Package features include the option for multiple speakers either in person or virtual, multiple breakout session, Q&A, polling and more.

What's more, it's totally mobile so can easily be moved into one of our larger spaces for a hybrid event with live audience.

Features include:

- Brandable 4m x 2m LED video wall
- 2 x Sony 4k cameras for close up and wide angle shots
- 2 x 55" comfort monitors for autocue, presentation view, view LED screen or view virtual speakers
- Adjustable washed and spot lighting
- 1 x dedicated technician
- Use of Hopin and Streamyard software for:
 - customisable branding
 - picture in picture
 - virtual panel discussions
 - caller holding
 - chat functions
 - Q&A sessions
 - additional virtual breakout sessions
- Up to 100 virtual participants (additional participants are an additional cost)

bespoke options

If our fixed package options don't quite fulfil your requirements we can offer a range of bespoke options to suit all budgets so if it's a full 'television studio' style production you need just speak to us today.

Working with our partners Bryght across all of our locations we can tailor a package to your requirements.

The first step would be for us to arrange a consultation with our IT Director and partner AV team, who will discuss your requirements with you before building a bespoke package and quote.

Speak to us today to arrange your no obligation consultation.

pre-event testing

For all of our starter options we are happy to set up a test virtual meeting room environment to allow organisers to run through the system and gain confidence in using it ready for the live event.
